

Training modular system for MMA professionals (TMS PRO) is a unique system of MMA panels fixed together, which will produce exactly to your gym.. If you do not need the entire cage is a great choice for you. This is really breakthrough in MMA training. Save space, save money, got best results.

- ▶ Quality steel construction
- ▶ Strong 3.9 mm diameter wire with PVC
- ▶ Customized

Saves space:

Beauty in simplicity. If you have little space in your gym, and do not want the whole MMA cage then TMS is the right solution for you. Build MMA wall! Send us your photos and Stedyx produce 3D design for free.

Variability:

It's simple! Stedyx TMS is variable. If you are planning any shape MMA wall we will always propose the best solutions. MMA panels are anchored to the wall and into the ground. This allows maximum strength. We will help you also if MMA wall stands in the middle of the room or next to the column.

Corner cushions with your logo:

Because we are the manufacturer we can offer more options of color
