

5 is more than 4! Competition ring for MMA with 5 ropes The PVC canvas is designed for MMA matches. The design of this ring is inspired by the Japanese competition RIZIN 1.

- The dimension between the ropes is 6 x 6 m (19.8 x 19.8 ft)
- Elevated padded floor 1m (3.2 feet)
- Padded floors 2.50 cm (0.98 inches)

International parameters:

All parameters of the MMA ring are designed to meet the requirements for organizing international matches. The floor of the ring is well cushioned and covered with printed PVC canvas, and it meets the most stringent safety requirements. The surface of the frame is galvanically treated so as to provide exceptional durability and longevity.

Safety:

Thanks to its truss structure, the MMA ring is strong and stable. It meets the most demanding requirements. The OSB boards that form the floor of the ring are 2.5 cm (0.98 inches) thick. The elevated OSB floor has a padded layer of 2.5 cm (0.98 inches) and a PVC canvas. Another bottom rope is added for extra safety. For an even greater safety, we recommend that you get acquainted with the RAGE MMA ring variant.
