

Training cage which stand on the floor of your gym and that's it! . Stedyx Floor Octagon Cage is a very good solution for a gym where you have already laid your own mats or Tatami. Stedyx functional design allows very simple installation.

- ▶ Quality steel construction
- ▶ Strong 3.9 mm diameter wire with PVC
- ▶ Printed corners

Save space:

If you have little space in your gym, Floor Octagon Cage is the right solution for you. Stedyx understands that every gym is different and that is why we produce a wide range of sizes. This training cage is made in following versions : 4 m, 5m, 6m, 7m and 8m.

Suitable for any surface:

You do not have to drill into the ground or the wall. Just screw MMA cage panels together using only the connectors and that's it! Put the cage on Tatami or wooden floor. With its lightweight design, it can happen even outside in the garden!

Steel frame:

The steel frame of Stedyx Floor Octagon cage is designed to be particularly lightweight and simple. The surface of the frame is safely padded. The padding is 2 cm thick and provides high security against injury.

Mobility:
