

Thanks to its truss structure, the boxing ring is strong and stable. It is suitable for the most demanding training and sparring. The elevated OSB floor has a padded layer of 1.5 cm and a cotton canvas. We normally supply this ring with 4 ropes. The safety of the athletes is our first priority.

- ▶ Elevated 30 cm (1 ft.) padded floor
- ▶ PES Kordex canvas with a grammage of 470 g / m2
- ▶ Leatherette corners and ropes

Purposeful design :

It is simple! The elevated 30 cm (1 ft) OSB floor ensures comfortable training. The floor of the ring is well cushioned and covered with a cotton canvas, and it meets the most stringent requirements of boxing federations. The surface of the frame is galvanically treated so as to provide exceptional durability and longevity.

Safety:

Thanks to its truss structure, the boxing ring is strong and stable. It is suitable for the most demanding training and sparring. The elevated OSB floor has a padded layer of 1.5 cm and a cotton canvas. We normally supply this ring with 4 ropes. The safety of the athletes is our first priority.

Because we are the manufacturer, we can offer you this boxing ring in more color variants. You can choose color combinations of the ropes,
